As an ownermanaged company within the nationwide BS Group, it is our mission to find the workplace that truly suits you. Shape your professional future with us!

For a company in Büren, we are looking for the ideal candidate for the following position at the earliest possible starting date:

Aircraft Mechanic – Maintenance Technology (m/f/d) - direct placement

Your Responsibilities:

- Responsibility for maintenance and repair work on the aircraft
- Control and documentation of the maintenance and repair work carried out
- You will analyze malfunctions and damage and eliminate them by replacing the affected components and fluids
- You will be responsible for the release of aircraft after maintenance work, including work on the aircraft structure, engines and mechanical systems

What you bring:

- Type Rating for AIRBUS A320 Family CEO/NEO, BOEING 737 NG/MAX
- Completed apprenticeship as an aircraft mechanic in maintenance technology (m/f/d) or comparable vocational training

- Relevant experience in the maintenance and repair of aircrafts and its parts
- Registered CAT B1 / CAT A license with type rating on the corresponding aircraft types
- Valid certificates in the field of EWIS, Fuel Tank Safety & Human Factors
- Valid background check
- Good english skills verbally and written
- Experience with the MS Office apps
- Structured and reliable work
- Willingness to work shifts
- Independent and responsible way of working
- Ability to work in a team

What you can expect:

- Permanent employment contract
- Payment of bonuses and special premiums
- Compensatory time off for overtime worked
- Up to 30 days vacation
- Continuous training and qualification opportunities
- Intensive employee support
- Starter bonus after passing the probationary period
